

CAPABILITY STATEMENT

ABOUT US

Tidewater IT Solutions operates at the intersection of mission assurance and digital transformation. We are a Certified Small Business that bridges the gap between government compliance and enterprise agility. We do not just support IT infrastructure; we architect the secure, networked environments required to turn complex data into actionable knowledge.

By applying DoD-level security standards to private enterprise and commercial agility to government missions, we ensure our partners maintain a decisive advantage. From the server room to the tactical edge, we implement solutions that increase operational readiness and drive workforce effectiveness.

CORE COMPETENCIES

-  **Secure Analytics & Force Protection (Cybersecurity)**
 - The Strategy:** Securing the digital boundary to protect data transparency.
 - The Tech:** Risk Management Framework (RMF) Accreditation, NIST 800-171/CMMC Compliance, STIG Remediation, Vulnerability Assessments (ACAS), Continuous Monitoring.
-  **Networked Environments (Engineering)**
 - The Strategy:** Building the resilient digital backbone for rapid feedback.
 - The Tech:** Cisco Routing & Switching (CCNA), IPv6 Migration Planning, Wireless/LAN Architecture, VPN & Firewall Configuration (Palo Alto/Juniper), Circuit Management.
-  **Digital Solutions & Systems (Infrastructure)**
 - The Strategy:** Implementing solutions for increased workforce effectiveness.
 - The Tech:** Cloud Infrastructure (Azure/Microsoft 365), Server Virtualization, Windows/Linux Administration, Active Directory & Group Policy Management, Data Center Operations.
-  **Workforce Engagement (Support)**
 - The Strategy:** resolving technical barriers to meet mission requirements.
 - The Tech:** Tier 1-3 Service Desk Operations, Incident Response & Ticket Management, End-User Training, Asset Management & Logistics.

PAST PERFORMANCES

Navy Enterprise Networks (NMCI) | *Subcontractor to Prime*

- Mission: Supported the largest intranet in the world (33+ sites) to ensure operational readiness for Navy Reserve Forces.
- Impact: Managed enterprise-scale configuration baselines, IP management, and ACL implementation, maintaining 99.9% uptime for mission-critical command and control.

Defense Information Systems Agency (DISA) | *Subcontractor to Prime*

- Mission: Engineered secure network boundaries for DoD global communications.
- Impact: Delivered STIG-compliant Cisco/Juniper configurations and wireless architecture, ensuring secure voice/video connectivity for high-level decision makers.
